

## SUSTAINABILITY

Dear Guests;

The measures we take for sustainability and our expectations from you,

### NATURAL LIFE

- We support the protection of endangered animals and plants for the protection of natural life.
- We undertake that threatened species are not used, sold or exhibited in our hotel.

Our expectations from you to support natural life;

- Do not buy animals, adopt stray animals instead.
- Do not adopt an animal you cannot take care of.
- Show the same compassion to all animals.
- Take care of stray animals.
- Pay attention to environmental cleanliness.
- Avoid fur and wild animal skin products.
- Do not feed wild animals.
- Protect animals' habitats.
- We recommend that you do not participate in activities that keep animals in captivity.

### Protection of Natural Habitats

Biodiversity consists of three elements that are important parameters of sustainable development: Genetic Diversity can be defined as biochemical packages that are inherited and determine the physical and biochemical characteristics of existence. The endemic plant species found in Alanya include; SnakePillow, CornFlower, CakshirGrass.

For the protection of these endemic plants;

- - Do not damage these plants when you are in areas with endemic plants such as Cornflower or ChakshirGrass.
- - Do not pluck, root or step on them.
- - Do not enter these areas with ATV motorcycles.

In addition to our natural areas and cultural life within the framework of our environmental policy;

In order to protect the environment we live in and ensure its continuity, we strive to identify our negative impacts on the environment and control possible dangers and waste during the conduct of our activities.

We aim to prevent environmental pollution by taking care to separate our waste at the source, so that more waste will have the chance of recycling, and by trying to minimize the amount of waste and the amount of harmful substances used, knowing that it can be destroyed without harming nature.

Join us in this regard and separate your waste.

## ENVIRONMENT

As Hotel;

- We support recycling by classifying our wastes at source and giving them to licensed companies. We have received our Zero Waste Certificate issued by the Ministry of Environment in all our facilities.
- In our facility, production is carried out on a per-person basis in order to minimize food waste. In addition, we separate our food waste and share it with our animal friends.
- We calculate our monthly energy savings by calculating the amount of waste from our facilities.
- We prefer the chemicals we use to be environmentally friendly. We calculate the amount of chemicals we use on a monthly basis.

Our expectations from you to leave a livable environment for our future generations,

- Avoid buying more food than you can eat from the buffet and join us in preventing food waste.
- We kindly ask you to support us in the separation of waste.

The color code of our waste;

## MEDICAL WASTE

Medical wastes are all kinds of wastes that harm human and environmental health, falling into three groups as pathological wastes, solid sharps wastes and infectious wastes. Please hand over such harmful wastes that you do not use to the room attendant for proper collection and disposal of these wastes.

## ELECTRONIC WASTE

It is a waste that may have harmful effects on the environment and human health due to the heavy metals it contains and must be collected separately. It is also an important waste in terms of the recovery of valuable metals such as gold, silver and copper it contains. Therefore, if you have electronic waste, you can give it to our staff.

## DID YOU KNOW THESE?

- 1 piece of paper can be reused 5 times
- 70 kg. waste paper saves 1 tree
- By using waste paper instead of wood,
- ✓ ☑ 25-70% Energy Savings,
- ✓ ☑ 60% Reduction in Air Pollution,
- ✓ ☑ 40% Reduction in Water Pollution,
- ✓ ☑ 60% Water Saving,
- ✓ ☑ 40% Reduction in Garbage Volume Can Be Achieved.
- You can reduce water consumption by 25% with water-saving shower heads.
- When one ton of newspaper is recycled, 8 pine trees are prevented from being cut down.

Did you know that 1 liter of waste oil can pollute 1 million liters of drinking water?

## ENERGY AND WATER SAVING

As Hotel;

- Our employees are trained on the controlled use of our energy resources such as electricity, water, lng, and what to do within the scope of energy saving and their records are kept regularly.
- We use energy-efficient products for this purpose.
- We pay special attention to the energy efficiency of the electronic products we purchase.
- Energy-saving lamps or led lighting are used.
- To save water, aerators were installed on our faucets.

Our expectations from you for Energy and Water Saving,

- Turn off all unnecessary energy sources (lamps, air conditioning, TV, etc.)
- Efficient lamps (LED) with high energy class labeling should be preferred.
- When the air conditioner is switched on, it should not be turned to a low temperature and cooled suddenly.
- The blowing speed of the air conditioner should not be kept too high.
- Products with high energy class should be preferred.
- Water should not be wasted
- Turn off the tap when brushing your teeth or shaving
- Shorten your time in the shower
- Keep the water off when soaping and shampooing in the shower.
- Use a water-saving faucet head
- Fully load the washing machine and dishwasher.
- If there is water leakage in your room, please inform the reception (0).

## SOCIAL RESPONSIBILITY

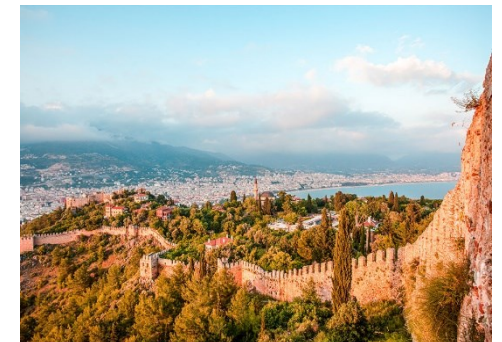

- We protect the rights of our employees, local people and suppliers and provide economic support to the region we are in by working with local tradesmen.
- You can follow the publications in our Alanya Corner to provide information about our region to our guests.
- We work together with our local people to cooperate and protect historical and cultural assets.
- As a hotel, we believe that we should support different institutions with sustainability awareness. In this context, we make donations to the Syedra Ancient City, which is our cultural heritage in our region, to Alanyaspor, the sports club of our region, and to the Tema foundation.

## HISTORICAL PLACES

- Many people today do not realize that cultural heritage is exposed to risks from sudden natural disasters such as earthquakes and floods, slow-moving processes such as pollution and other human activities.
- Even the most innocent acts, such as taking small pieces of old pottery or mosaics as souvenirs, can be destructive when repeated by thousands of people.
- Touching a textile, stone or metal object leaves oil stains or acid from sweat.
- Climbing a historical building causes it to erode and disintegrate.
- Writing or engraving a name causes irreparable damage.
- Walking around with large bags or backpacks in cramped and crowded spaces can knock over a piece or scratch a picture on a wall, causing destruction.
- There are countless ways in which we unwittingly contribute to the destruction of cultural heritage.
- Let's come together to protect our cultural heritage and benefit from its diversity and richness.

Let's act together to protect our cultural heritage and benefit from its diversity and richness.  
As a hotel; There are no cultural heritage (historical artefacts) products in our hotel, sales, exhibition etc. We guarantee that it has not been done.

## OUR HISTORICAL AND ARCHAEOLOGICAL SITES

While visiting places with cultural and historical values, behaviors that will harm our historical values should be avoided. These include entering areas where it is not allowed, throwing garbage on the ground, taking photos in areas where photography is not allowed, not touching historical values, etc. All kinds of behaviors that may cause damage should be avoided. In addition, you can support local people by buying local food and souvenirs on your trips.

## ALANYA CITY

With its thousands of years of history, its culture and architecture, which is a mixture of Mediterranean and Anatolian cultures, Alanya offers countless options for those who want to spend their history in this town. With over 100 kilometers of coastline and unique beaches, the city satisfies those who are interested in history and enchants nature lovers. For those who prefer the unique plateaus, heights and cool air of the Taurus Mountains to the sea.

Alanya is one of the most prominent districts of Antalya province in the Mediterranean Region, located to the east of the city center. It is a residential area established between the Taurus Mountains and the magnificent blue of the Mediterranean Sea. Alanya borders Antalya's Gazipaşa, Gündoğmuş and Manavgat districts as well as Konya and Karaman. It is one of the most important coastal districts with a unique beauty, generously displaying natural, historical and cultural beauties at every point of view.

The distance between Antalya city center and Alanya is approximately 140 kilometers by road. This distance requires an estimated 2-hour drive.

You can access a lot of information about the Alanya region, such as images, historical places, alternative tourism places, natural life structure, people who built Alanya, old Yoruk life, traditional customs, etc. during your trip to Alanya. You can examine the history of Alanya and its historical and cultural ruins from the QR code and link below.

While you are in Alanya, Alanya Castle, Red Tower, Alanya Shipyard, Dimçayı, Syedra Ancient City, Damlataş Cave, Dim Cave, Alanya Archeology Museum, Alanya Pier, Sapadere Canyon are the places to visit. We kindly request that you act in accordance with Turkish traditions and customs when visiting these regions. In this context;

-Speaking loudly and not pointing

-When going sightseeing, it is necessary to take care of the appearance and clothing.

-Also, when entering religious areas such as mosques, it is necessary to dress according to religious beliefs.

## PUBLIC TRANSPORTATION

### The Benefits of Using Public Transport:

- *Reduces traffic.*
- *Prevents environmental pollution.*
- *It is safe and comfortable.*
- *It is economical and fast.*
- *It saves energy and time over long and short distances.*

### Benefits of cycling:

- *Reduces traffic.*
- *Prevents environmental pollution.*
- *It is safe thanks to the bicycle paths within the city.*
- *It is economical.*
- *It saves energy and time over long and short distances.*

As Hotel, we support the use of bicycles and public transportation in order to protect nature. We kindly request you to use public transportation for your urban transportation. You can get there by using city buses from the bus stop located ... meters away from our hotel.

## OUR CHILDREN, OUR FUTURE

It is our duty to protect and care for them. For the protection of our children, please help us in case of abuse and neglect. If you detect such a situation, please inform the Reception (0).

### WE INVITE YOU TO COOPERATE IN PROTECTING OUR CHILDREN;

- Do not leave your young children under the age of 0-12 alone in your room,
- Do not leave your children under the age of 0-12 alone in the pools and on the beach,
- Do not allow children under the age of 0-12 to use elevators alone,
- Do not hand over your children to strangers in the hotel and do not go out of the hotel,
- To pick up your children that you have delivered to the mini club by yourself,
- Do not allow children under 18 to drink alcohol,
- Respect children's rights,
- Not to engage in behaviors of child neglect and abuse,
- Report anyone who violates children's rights and abuse to the hotel management

We ask you, our esteemed guests.

"Children make up one third of our present population and the whole of our future.
